The Louisville Journal has no doubt but that a majority of the Republican party consists of men who were of Democratic antecedents. That is a very comical declaration. Where is the once powerful Whig party of the North? Have they changed their name and become Democrats, whilst the Democrats have deserted to the Republicans? The plain truth is, the Republican party simply replaces the Whig party of the North, and the Democrats hold their own now in every fair election. We can take the vote by counties, and we find in the main the same counties Democratic that have been so for the last twenty years, the relative difference between parties not being more than five or ten per cent.

Nearly the same Democratic vote that was poiled in 1860 was polled last year, and in the same localities. Take the five or six thousand majority in Berks county, Pa., as au example, and about the same majority in Lancaster; the former Democratic, the latter, once Whig, now Republican. We may go through Penusylvania, and take the counties one by one, where they were Democratic with a Whig opposition, and it will be found they are still Democratic, with a Republican opposition.

Camp Shiloh contains 600 and a nigger hospital, erowded with black recipients of Aboition sympathy and Government pills. In Memphis there are 3,000 freed negroes, of ali ages, sizes and conditions, living off of the Rovernment and doing well. Mr. Yateman complains bitterly because these free niggers are not paid as much as white men for their labor, and finds that army officers have dared to make the distinction. At Helena there are 2,213 of these defenders of the Union-774 supporting themselves, while the rest get Government grub. At the month of White

is at Milliken's Bend and two at Vicksburg. From Goodrich's Landing to Milliken's Bend the explore: was escorted by 20 negroes on captured mules. He liked it. At Milliken's Bend there are 350 free negroes, exclusive of soldiers. At Goodrich's Landing the explorer gained much valuable information. Eleven farms were worked by 2,775 free negroes, and fed by the Government. A physician had established a hospital, but was not doing much towards keeping the poor negro above ground. The negro complained badly, and said his new masters were worse than his old seccsh masters. The lesses, Mr. Yateman learned, were "army sharks,"

aud cared nothing for the poor negro. The Assembly of the United Presbyterian Church has a full corps of teachers at Goodrich's Landing. Besides these, four colored eachers have each a school. Rose Anna has forty or fifty pupils, Uncle Jack has eightynine, Uncle Tom teaches thirty, and William McCntchen sixty-three.

At Omega, two miles above Milliken's Bond, are 200 niggers cutting wood. At Van Burenithere are 419 eating off the Government in hospitals, and 250 young darkies in good schools. 'Oa Pawpaw Island 1,550 are located in their fith. Young's Point has 2,100 in miserable huts, destitute and dying, from 30 to 50 and sometimes 75 daily. They have had medicines sent forward to them. At De Sota are 275 in like miserable condition. At Vicksburg there are 5 regiments of darkies. Thirty miles below 600 niggers had taken pessession of Jeff. and Jo. Davis' plantation; a guzboat is kept stationed there to defend them. At Natchez there is a camp of 2,100 free negross, in moderate circumstances, only seventy-five dying daily. Misery had been driving many back to their masters by its treatment. Sickness in a short time had reduced their number from 4,200 to 2,100. Thousands are perishing from want. Opposite Natchez were 600 in camp in the same condition. A regiment of 600 is at Columbus, Ky. Island No. 10 has 1,000 free negroes, and 200 in the invalid corps. An equal amount of suffering, filth, have not broken ranks, nor changed at all sickness and death amongst the same number of people cannot be found, probably, in the world; and still these miserable Abolition fanatics say they are benefiting the poor nemust be mostly of Whig antecedents, and the gro. The Poor Up Town.

Messrs. Editors: While a vast amount of good has been accomplished by our generoushearted citizeus-especially the kind ladiestowards alleviating the sufferings of the unfortunate poor of our city, I eannot refrain any longer from calling the attention of our citizens to the sad and deplorable condition of the poverty-stricken community in the up-

per portion of cur city. For the past week we have been made to feel and experience one of the coldest winters that has been allotted us for a number of years—a winter bleak and bitter cold, that will long live in the memories of the many poor souls who have been made to suffer from its consequences. Poyntation erty and starvation follow slow but sure in its footsteps, never failing to visit every hamble hut and home, leaving the fruits of their nageuerous visits fearfully depleted upon the sad countenances of the destitute widows and methers, never slighting the innocent faces of the poor little half-starved, half-naked children who sit shivering in the cold before the Affaire:
Resolved by the General Assembly of the Commonwealth of Kentucky: 1. That Kentucky is now, as she has always been, loyal and true to the Government of the United States of Americand Market and Market States of Americand Market S ca, and to the Constitution and laws made in pursuance thereof.

A day or two since a fashicnably dressed lady visited his house (and others besides). She got out of her carriage, went in, told them where to call on her if they stood in need, where to call on her it they stood in need, promised them everything but did nothing, and was never heard from after wards. Now, such instances of aristocratic generosity are becoming quite frequent in the upper portion of the city, and by a class of people who pro-fess much willingness lu their oestowment of favors—in words—but not in deeds. "Gentlo words" often banish teardrops of sorrow from the downcast eye, and may scothe the griefs of a saddened heart; but words only will not keep poverty-stricken mothers and poor little children from starving or freezing to death this cold winter. It were a much better plan to practice more and preach less. [f am happy 10 state that I have no reference to any of the generons hearted and kind ladies connected with the committee of ladies recently appointed, for they are doing a good work.]

Would it not be a good plan to appoint a gentleman from each voting district to look after the interests of the poor in his district, who will make it his duty to see that they are comfortably situated? I think so. I do hope that the "good work" will still go on, and that something will be done to speedily alleviate the sufferings of the poor in the npper portion of the city. Though (as I said) they have been neglected heretolore by those poor in anthority: not from carelessness, but in anthority; not from carelessness, but because of their having no rightful knowledge of their condition, nor their place of habita-tion. The generous hearted citizens in the npper portion of the city have responded most nobly to all calls upon them for aid and comfor; several of whom have given both time and money in the cause of this good and benevolent work. [From the Washington Republican.] Not many days since, information reached the President that a young man belonging to the Army of the Potomac had been senteneed by court martial to be shot for desertion. The boy was doomed to dle in a few hours when the dispatch was received. No time was to be lost. A telegram was sent to Gen. Meade suspending the execution. An exami-nation of the case was ordered by the President, when it was ascertained that the young man ought to have been promoted long ago for gallant and meritorious service, instead of

being shot.

It appeared that upon the march of the army of the Potomac toward Maryland, on the occasion of Lee's first raid northward, the young man alluded to became exhausted and fell out of the ranks, and, as soon as he recov-ered, he proceeded on after his regiment, but not finding it, and there being no time to lose, he fell into the ranks of another regiment, and fought galiantly at South Monatain and and fought galiantly at South Monatain and Antietam, and was wennded in the last named battle. He was sent to the hospital, which fact, by the absence of a proper system in such cases, did not reach the officers of his regiment. At last he was arrestel as a deseiter, tried, condemued, and was about to be shot, when, by the interference of the Executive, his life was saved, and a young man hastily condemned to an ignominious death was suddenly restored to honor.

Sympathizers with the rebeilion who, while enjoying protection from the Government abuse the leniency extended to them by con-cealing the movements of rebel guerrillas, by giving them information, affording them shelter, supplying them with previsions and otherwise encouraging and fomenting private raids, are in criminal complicity with all the outrages perpetrated by the maranders whom

they secretly countena It is in the power of persons whose sympa-hies are with the rebellion to prevent guerrilla raids, almost invariably, by furnishing to military officers of the United States or State of Kentucky the Information which expe-rience has proved them to be, as a general thing, possessed of.

If all would unite, as is their enty, in putting down guerrillas, we would soon cease to be troubled with their raids. A neglect to

afford all assistance and information which may ald in defeating the designs of marand ing parties can but be construed as a culpable and active assistance to our encmles I therefore request that the various militahim. XXXVIIIth Congress-First Session. WASHINGTON, January 7. SENATE.

Mr. Wilson, of Massachusetts, introduced resolution providing for the expulsion of Benator Davis, of Kentucky, owing to the sentiments put forth in a recent resolution by the latter, which, in the opinion of Mr. Wil-son, incites people to treasonable insurrec-tion and rebellion.

Mr. Davis explained to the Senate that the arguage quoted in Mr. Wilson's resolution was a garbled version of his own resolution. What be (Davis) proposed was that the people should rise at the polis and take the power of this Government into their own hands. He (Davis) repeated that the terms of Mr. Wilson's resolution were against the terms of also owe, and were take in fact. The subject was then passed over, and the secute resumed the consideration of the bill a amendment of the enrollment act.

A detait followed on the \$300 commuta-

Mr. Lane, of Indiana, advocated its repeal.

Mr. Wilson opposed striking it out, and be lieved the country would sustain him. He believed the term of service ought in be educed from three years to eighteen months Without a vote the Senate went into execuive session, and subsequently adjourned.

BOSTON, January S. The annual message of Gov. Andrew was delivered to day. It is very lengthy and com-prehensive. The receipts into the Stale reasury for the year were \$7,220,823, and the payments in the same time were \$6,728,597. The establishment of a military academy under the patronage of the Commonwealth is urged. The total number of men furnished to the land service by Massachusetts previous to October, 1863, was seventy five thousand six hundred and eight.

6:x bundred and eight.
Gov. Andrew argues at length in favor of recruiting our wasted regiments in the field.
He says that whenever one community can furnish volunteers for our armies, and other communities can afford to pay them to come out cannot afford to spare their own men from their own industry, the simplest politi-cal economy teaches wastefulness in refusing o allow these balances to be adjusted by the aw of supply and demand.

Gov. Andrew closes as follows:

Gov. Andrew closes as follows:

The great proclamation of liberty will lift the rulers who uttered it to our nation and our age above all vulgar destiny. The bell which rung out the Declaration of Independence has found at lasts voice to articulate and proclaim it throughout the land and to all the inhabitanis thereof. It has been heard across oceans, and has modified the sentiments of cabinets and kings. The people of the Old World have heard it, and they stop to catch a whisper of its echoes.

The poor slare has heard it with abounding joy. Tempered by the mystery of religion, he worships and adores the waiting continent. Ife has heard it and already foresces the fulfilled prophecy when she will set redeemed and regenerated and disentralled by the graces of universal emuncipation.

Some months ago a plan was projected and sanctioned by Gen. Meade, provided it was sanctioned by law, to effect this object, but on reference to Wash-lngton it was found unauthorized by existing laws regulating trade and commercial rules. Mr. ALF. ALLEN off-red the following resolutions, which were adopted:

The tobacco interest of Kentacky is at this time its most important one, from which wealth flows to the State and General government, and comfort and prosperty to the clizans. It is a crop, the place of which, to the poor man and small farmer, cannot be supplied, for its production requires but a small territory and a limited force. By it the poor man purchases his groceries, pays his taxes, and educates his children. It fills the treasury of the State, so that Kentucky can render efficient aid to the government in conquering the existing rehellon. It yields a large revenue to the government under the income tax iaw. It takes but little, if anything, from the production of grain, as its cuitivation requires but little effort nutil the grain crops are out of the way. It employs women and children, who, otherwise, could be of but little service on the farm. It is a inxury, it is true, but finding its consumers abrond, it brings home the wealth of foreign lands. It supplies (to a certain extent) the place of gold and sterling exchange, at a time when these necessaries of commerce are so see and difficult to be land. And yet this Legislature has heard with a stonishment and disa by that it has been recommended to the General Government to put an additional tax upon the article of manufactured tobacco, and a heavy and ruinous tax on that of leaf tobacco. This policy would destroy the crop niterly, and leave no resort for the kind of farmers now engaged in its production—wherefore, 1. Resolved by the General Assembly of the Commonwealth of Kentucky, That an additional tax on the manufactured tobacco of the United States would result disastrously to the tobacco interest there of, and that any tax on leaf tobacco would be injurious to the State and to the nation, and ruinous to a large portion of their citizens.

2. That this Legislature carnestly remonstrates with Congress against the Imposition of these or any other taxes on tobacco, whether manuf ed, and our Representatives he requested, to use every effort to prevent this monstrons injustice and oppressive folly.

3 That copies of these resolutions be forward-ed to each of our Senators and Representatives in

From the Richmond Whiz. said that the great success of the Plantation Bitters of
Dr. Drake, which, previous to our unhappy difficulties,
was found in most Southern bomes, was owing to the extract of Callsaya Bark, which it contained as one of its principal ingredients, "In confirmation of this, we have heard one of our most distinguished physicians remark, that whenever he felt unwell from ordinary dietetic or a mospheric causes, he invariably relieved himself by Plantation Bitters. Now that these Bitters cannot be obtained, a substitute shou'd be prepared We understand that our Government has opened negotiations with Dr. Drake, through a secret agent, but with what truth we do not know."
